THE INTERNATIONAL STRUCTURE OF THE POPULATION OF UKRAINE

The structure and dynamics of international migration of Ukrainians in the 1990s and 2000s. It is a complex process, but not a random one. It is determined by the economic and social conditions in Ukraine and abroad. The international structure of the population of Ukraine is determined by the economic and social conditions in Ukraine and abroad. It is a complex process, but not a random one. It is determined by the economic and social conditions in Ukraine and abroad.

THE ETHNO-NATIONAL STRUCTURE OF THE POPULATION OF UKRAINE

The article analyzes the ethno-national structure of the population of Ukraine, taking into account the results of the 2001 and 2009 censuses. It is noted that the ethno-national structure of the population of Ukraine is characterized by a high degree of heterogeneity. The article also analyzes the ethno-national structure of the population of Ukraine in different regions of the country. It is noted that the ethno-national structure of the population of Ukraine is characterized by a high degree of heterogeneity. The article also analyzes the ethno-national structure of the population of Ukraine in different regions of the country.

the regions... assimilation. These circumstances complicate the post-war prospect... ethno-cultural traditions. Examples can be taken from sociological surveys that we conducted with Active Group Sociological Company: 1) *The state of society in the temporarily occupied territories (August 2024-January 2025)*. 2) *Identity in the temporarily occupied territories (January 2025)*. 3) *Education in the temporarily occupied territories (January 2025)*.
